Meishike

Meishike is a management system for restaurant, which consist of online-ordering, online-billing, kitchen management, VIP management and data analysis. Meishike has 3 parts of system, respectively for the clients, for the kitchen and for the managers, the clients use Meishike to order plat and pay online, the kitchen receive the orders and cook, and the managers can view the statistics. Meishike combines the restaurant and the internet, synchronizes online and offline data, create an opportunity for information marketing and "no waiter restaurant".

Analysis

Application(Example: GULUGULU)

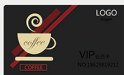

GULUGULU is a milk-tea and snake bar, which mainly provides customers ice drinks and snacks for summer. Therefore, we take apple green as the main color, which looks cooler and provides a feeling of fresh.
